Allowable Subject Matter

4. Claims 12-18 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The present claims are allowable for at least the following reason(s) over the closest reference: Wilkinson (US 5 688 870)

Wilkinson discloses a two-stage process for preparing re-dispersible polymeric powders by copolymerizing a polyorganosiloxane macromer with an ethylenically unsaturated monomer in the presence of an oil-soluble or a water-soluble free-radical initiator. (col. 3, line 52 to col. 4, line 7, col. 5, lines 17-36 and Examples) However, Wilkinson does not teach or fairly suggest the use of an oil-soluble free-radical initiator in the first-stage process, while a water-soluble free-radical initiator in the second-stage process. Especially, in Examples, Applicants show the ***unexpected result*** of utilizing different types of free-radical initiators in terms of their water-solubilities in a two-stage process for preparing re-dispersible polymeric powders.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays,

should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
